Re: System Benefit Charge Renewal

Dear Ms. Brillig,

I am submitting this letter to you in support of the NYS Public Service Commission (PSC) System Benefit Charge (SBC) renewal, and of the New York State Energy Research and Development Authority (NYSERDA) projects that are funded through the SBC.

As a graduate student of environmental policy, I understand the benefits of these programs to the residents of New York and the region and would like to see a continuation of the SBC and the programs its funding supports.

Sincerely,

Nancy Aitken
