**Hon.** Ms. Jaclyn A. Brillling, Secretary  
NEW YORK STATE PUBLIC SERVICE COMMISSION  
3 Empire State Plaza  
Albany, NY 12223-1350

Dear Ms. Brillling,

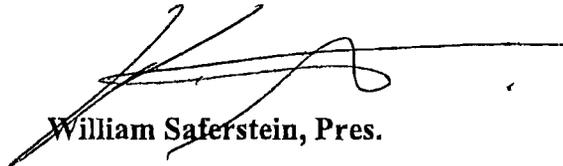

We are an independent specialist room air conditioning company located in the Bronx, New York. We have been in business for over 50 years, and, air conditioning is our only business. We write in support of the NY State ENERGY STAR Products Program – which we have found to be **valuable** and effective, and, clearly worth continuing.

Accordingly, we respectfully and sincerely recommend to the NY STATE PUBLIC SERVICE COMMISSION that:

- a. NYSERDA should be awarded the SBC 3 funds;
- b. The SBC 3 funds should be extended after June 30, 2006, in the interests of program stability;
- c. Separation of funds between the Residential and Energy Affordability Program (REAP), and, the Research & Development (**R&D**) unit of NYSERDA. Please allow significant **funds** to be **designated** to **REAP** to run funds like the ENERGY STAR Products Program and other New York Energy **Smart** Programs;
- d. Create an SBC charge for natural gas users in New York State to increase **NYSERDA's** funding for the New York Energy **Smart** Programs.

For these reasons we urge the COMMISSION to support this worthy entity.

Very truly **your's**

**William Saferstein, Pres.**
