RE: Case 05-M-0090

Dear Ms. Brillings:

We are part of the Weatherization Assistance Program administered by the New York State Division of Housing and Community Renewal engaged in improving the heating efficiency, thus producing fuel savings, in the homes of low-income, elderly and disabled persons.

It is important for the clients we serve to have the Public Service Commission NOT cut these programs, programs like the Assisted Home Performance Program, Empower NY and others. Our clients have benefited from many of these programs and we need to ensure that they continue.

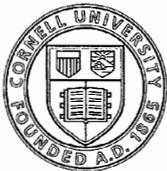

Several issues that should be addressed are; extension of the time frame to perhaps 10 years, increased funding for residential clients, increased funding for low income programs, inclusion of a residential natural gas program and increased funding above the 150 million level.

Yours truly,

A handwritten signature in cursive script that reads "Nancy Quay Milner".
