Jaclyn A. Brillling  
Secretary, New York State Public Service Commission  
3 Empire State Plaza  
Albany, NY 12223-1350

Dear Jaclyn A. Brillling,

I am writing to you to encourage you to award SBC 3 funds to the NYSERDA program. The extension of SBC 3 funds after June 30, 2006 for five to seven years will continue to ensure program stability. Separate funds should be issued between the Residential and Energy Affordability Program (REAP) and the Research & Development (R&D) of NYSERDA. This should allow significant funds to be designated to REAP to run programs like the Energy Star Products Program and other New York Energy Smart Programs. In addition we would like to see a push for the creation of an SBC charge for natural gas users in New York State to increase NYSERDA's funding for the New York Energy Smart Programs.

These funds have been helpful to our business in allowing us to increase our advertising and for holding seminars on Energy Star Products. In turn we have seen increased customer awareness for Energy Star Products. Awarding NYSERDA these funds will stabilize the program and allow them to continue to provide valuable services.

Sincerely,

Scott Schwartz  
President
