Re: NYSERDA funds

Jaclyn A. Brillling
Secretary, New York State Public Service Commission
3 Empire State Plaza
Albany, NY 12223-1350

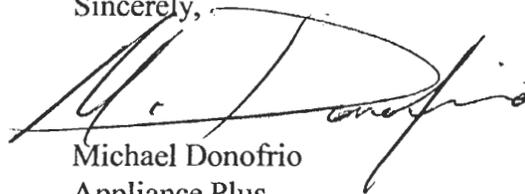

To Jaclyn A. Brisling,

We take this moment to write to you to make sure that you take note the importance of the NYSERDA program. We here at Appliance Plus in Walton, NY; feel that this program has helped a create awareness of the Energy Star appliances and their purpose. Now programs are starting targeting clothes washer products , which I feel is very important .

Therefore we ask that NYSERDA should be awarded the SBC 3 funds and that the funds be extended after June 30, 2006 for atlas five to seven years to ensure the stability of this program . We also request that the funds between the Residential and Energy Affordability and the R&D of NYSERDA be separated.

We hope you will seriously consider these issues . Thank you for your time.

Sincerely,

Michael Donofrio
