Dear Ms. Jaclyn A Brillig;

It is important that we secure SBC 3 funds after June 30, 2006 and extend them five to seven years to ensure program stability. **NYSERDA** should be awarded the SBC 3 funds. Separate funds between the Residential & Energy Affordability Program (REAP) and the Research & Development (R&D) of NYSERDA. Allow significant funds to be designated to REAP to run programs like the ENERGY STAR Products program and other New York Energy Smart Programs. Co-op advertising through these programs benefits the environment. There should be a creation of SBC charge for natural gas users in NYS to increase NYSERDA's funding for the New York Energy Smart Programs.

NYSERDA should be awarded the SBC 3 funds. Please help this get accomplished.

Sincerely,

Joanne Conforti
