

Adam Procell  
DMJM Harris

*Vice President, Director of Energy Services*

As national Director of Energy Services for DMJM Harris, Adam Procell is responsible for strategic planning and operations. Mr. Procell has extensive experience in the energy services, sustainability and building construction industry, where he has managed engineering, construction, sales and business development.

Over the last several years, Mr. Procell has led the development of DMJM Harris's Energy Services (ESCO) business, and facilitated the growth of this organization across both geographic and vertical market expansion. This has included the development and realization of more than \$500 million of turnkey energy projects in the higher education, healthcare, K-12, government building, commercial and industrial sectors. His expertise includes the areas of energy efficiency, renewable energy and sustainability. He has been active in the process of developing regulations, legislation and state programs in these areas, and currently serves as the Vice Chairman of the National Association of Energy Services Companies (NAESCO).

Throughout his career, Mr. Procell has worked closely with utility and public agency clients throughout the Northeast and in California. This has included involvement in the energy initiatives of New York State and City of New York agencies, as well as work with NYPA and NYSERDA on their energy programs.

Mr. Procell received his BS in Interdisciplinary Engineering and Management from Clarkson University in Potsdam, NY.
