Summary of Customer Contacts recorded against ESCO's	11

Customer Service Response Index

Quick Reference Guide

In order to measure the effectiveness of each service provider's performance concerning issues brought to our attention by their customers the Office of Consumer Services has developed a Customer Service Response Index (CSRI). This index is reported on a monthly basis to compare the level of service and responsiveness delivered by each service provider under the Commission's jurisdiction. The CSRI is determined by measuring the following four metrics:

The Consumer Satisfaction Metric (CSM); a ratio of the number of complaints to the number of QRS cases in the reporting month. All customer contacts begin as QRS cases. A complaint is recorded as a result of the customer being dissatisfied with the service provider's resolution of a case which was handled as a QRS case. A CSM score of 5 points are awarded when a service provider receives no complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the PSC refers to them.

The QRS Response Time Metric (QRM); the average number of days it took the service provider to respond to QRS cases closed in the reporting month. A QRM score of 2 points is awarded when a provider's average response time for QRS cases is 14 days or less. The response time on each case is calculated by subtracting the response date from the date the case was opened. The average response time for each service provider is calculated by adding all the response times for QRS cases closed in the reporting month and dividing by the number of QRS cases closed that month. No points are earned if the average response time for QRS cases is more than 28 days (twice the acceptable reply standard).

The SRS Response Time Metric (SRM); the average number of days it took to respond to SRS cases closed in the reporting month. An SRM score of 2 points is awarded when a service provider's average response time for SRS cases is 10 days or less. The response time on each case is calculated by subtracting the SRS response date from the date the SRS case was opened. The SRM average response time for each provider is calculated by adding all the response times for SRS cases closed in the reporting month and dividing by the number of SRS cases closed that month. If the case was in rebuttal status (a request by staff for additional information subsequent to a service providers initial reply), the response time will be calculated by subtracting the response date from the date the case was rebutted by staff. No points are earned if the average response time for SRS cases is more than 25 days (two weeks past due).

The Pending Case Metric (PCM); the average age of all cases awaiting response, determined on the last day of the reporting month. A PCM score of 1 point is awarded when a service providers' average age of cases is 14 days or less. The age of each case is determined by subtracting the last day of the reporting month from the date opened on all cases awaiting a utility response. The PCM average is calculated by adding the age of all pending cases at the months end and dividing by the number of open cases. No points are earned if the average age of cases exceeds 70 days (two months delinquent) and a negative score is applied and if the average age is between 70 and 90 days.

The final CSRI score is the sum of the four metrics. Complete CSRI data is posted for those service providers that average 10 or more QRS cases per month. For all other service providers, the performance in each area is reported monthly less the actual CSRI measure. The volume of activity for these companies would result in significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service providers performance.

COMPLAINT RATES* OF MAJOR NEW YORK UTILITIES

February 2005

Utility	Jan-05		Feb-05		Annual Complaint Volume			Y-T-D Complaint Volume			12 Month

Other Water Utilities	N/A	0	N/A	0	11	18	63.6	1	0	-100.0	N/A

All complaint rates are based on 2004 customer populations.

* - Complaints per 100,000 customer accounts

The reduction in the number of complaints is attributed to the method in which complaints are now processed.

Please refer to the July and August 2002 Month Report which describes the Quick Response System and the process by which cases are now handled.

CREDIT COMPLAINTS vs. TOTAL COMPLAINTS

Major New York Energy Utilities

February-05

Utility	Feb-05			Last 12 Months			12 mos.	12 mos.
	Total	Credit	% Credit	Total	Credit	% Credit	Total	Credit
Central Hudson	3	0	0%	28	5	18%	0.8	0.4

Informal Hearings, Shared Meter Cases, Appeals and Rehearings February 2005

Informal Hearing Cases

As of the end of December, there were 104 cases in the Informal Hearing Unit. During this month, 6 complaints were resolved with pre-hearing mediation, 14 informal hearings were scheduled, 2 hearings were postponed, 11 hearings were held during which 2 settlements were reached and one complainant failed to appear for his hearing. Written decisions were issued in 7 informal hearing cases.

Shared Meter Designee Cases

Under Section 52 of the PSL (Shared Meter Law) only the Commission or its Designee can decide certain complaints. The majority of these cases concern the 12-month charge assessed to owners for failure to find and correct instances of shared metering. At the end of February there were 254 shared meter complaints pending. Fifty-five new complaints were received in February and 11 cases were closed. Further information on the closed cases follows.

The designee reduced the 12-month assessment to the minimum of 25% in 8 cases and to 38% in 1 case. The charges were cancelled in 2 cases – in one case because the owner provided proof of extraordinary cost to correct the condition, and in the other case because the utility should not have billed the new owner for the shared meter where the shared meter condition was found to exist before the sale of the property.

Appeals and Rehearings

During February 2005, one appeal – from a commercial customer disputing responsibility for NFG gas service – was accepted for review.
